WEEKLY

18–29 May 2026 · 25 calls · 19 pitches · 6 carried no product story

THE TREND

FRAMING PAIR & ENGAGEMENT, BY WEEK

ELEMENTS DELIVERED, PER REP

IS THE TEAM STICKING TO THE MESSAGE?

The framing pair — the problem *and* the category, landing together — held in 13 of 19 pitches.

IS IT LANDING?

73/100

pitches where the framing landed · n=13

56/100

where it did not · n=6

Read that as a hypothesis, not a finding. Reps who deliver the whole message may also be working better accounts — with this many calls the two cannot be separated.

WHAT EARNS ATTENTION, WHAT LOSES THE ROOM

A lift is the buyer saying something real straight after an element lands. A drop is three or more rep turns with no reply, or an explicit deflection.

WHO IS DELIVERING IT

REP	PITCHES · ELEMENTS · FRAMING PAIR	ENG .
Ana	6 pitches · 4.5 of 6 elements · framing pair 2 of 6	67/100
Ben	5 pitches · 5.6 of 6 elements · framing pair 5 of 5	73/100
Chloe	5 pitches · 3.8 of 6 elements · framing pair 4 of 5	55/100
Dev	3 pitches · 2.3 of 6 elements · framing pair 2 of 3	58/100

WHERE IT CAME BACK AT US

“So it takes into account the space between the events, not just the events. That’s actually how I’d explain it to my board”
— Cobalt Systems · recorded, never scored
