WHAT WORKED

Beacon Analytics was your strongest call — engagement 67/100.

“Okay. *This is interesting.*”

WHAT YOU MISSED

On Beacon Analytics you did not land: **the problem** and **the category** — the two that separate the new message from the old pitch.

WHAT TO IMPROVE

Say the problem out loud before you move into the product. *Done looks like*: it appears in the first two minutes of the call.
