## SINCE LAST WEEK

**Last week you were skipping the category** — missed in 3 of 3 pitches. This week it landed in the one pitch you had. That is the change, and it held.

## THE PATTERN TO FIX

**The problem** went unsaid in **3 of your 4 pitches**. One call is a slip; 3 is a habit — which is the whole reason this message exists alongside the daily one.

## WHAT TO IMPROVE

Say the problem out loud before you move into the product. *Done looks like:* it appears in the first two minutes of the call.
